The way you market our book is a matter of your preference. What we have found to be successful is to include the book in the course cost. With the expanded edition, the additional 32 hands will let your students see how well they understand the material. You also could use the extra hands to provide ongoing supervised play classes.

* We suggest you purchase your own binders to save on shipping & handling. The three ring white 1” binder can be purchased at Sam’s Club for approximately \$1.50 each.
